

sheets [sheet] extending together beyond the second end of the mesh sheet to lie against each other [the second thermoplastic sheet].

3. (Amended) The bag of Claim 2 in which a third transverse seal between the first and second thermoplastic sheets is present, being spaced from said [plastic] mesh sheet.

4. (Amended) The bag of Claim 1 in which a third transverse seal is present between said first and second thermoplastic sheets, being spaced from said [plastic] mesh sheet.

16. (Amended) A bag for containing products [produce and the like], said bag comprising a central section and two end sections and having sealed side edges, said end sections each comprising sections of thermoplastic sheeting sealed together to provide a pair of facing bag walls and defining a bag interior, a central section of said bag comprising at least one plastic mesh sheet sealed to said end sections, said central section [also] defining a pair of facing walls, sealed at said side edges, at least one of said walls comprising said plastic mesh sheet to further define the bag interior, said end sections being spaced from said plastic mesh sheet, one of said end sections defining an unfolded pair of separate, flat, thermoplastic sheets.

Please add the following claim:

20. The bag of Claim 18 in which a second of said end sections comprises said thermoplastic sheet folded over to define a pair of wall portions which define said second end section.

REMARKS

Reconsideration of this application and allowance of the Claims is respectfully requested.

The amendments of Claims 1, 3, 4, and 16 are responsive to the rejections under 35 USC 112. Also, it is submitted that these amendments are clearly supported by the disclosure of this
